More about that later, just let me make it clear that an interest in physics doesn't make me a physicist. Even if I were, I couldn't explain quantum mechanics in an hour or a year. Some say quantum theory is so weird that no one can fully understand all its

implications. Some things proven in quantum experiments seem to defy common sense, and I'll lay out a few for you, just to give you the flavor. First, on the subatomic level, effect sometimes comes before cause. In other words, an event can happen before the reason for it ever occurs. Equally odd ... in an experiment with a human observer, subatomic particles behave differently from the way they behave when the experiment is unobserved while in progress and the results are examined only after the fact-which might suggest that human will, even subconsciously expressed, shapes reality." "Well, we have earthquakes here," Jolene said, "but back east they have all those hurricanes." She also sought forgiveness for the hardness with which she had treated Nicholas Deed. "Where did you hear that expression," she demanded, though she couldn't conceal her amusement. We know a dozen different Arthurs now, all of them true. The Shire changed irrevocably even in Bilbos lifetime. Don Quixote went riding out to Argentina and met Jorge Luis Borges there. Plus c'est la meme chose, plus fa change. The rich aromas on the air would have thwarted the will of the most devout monks on a fast of penitence. In the main room, on his way toward the front door, Junior saw Celestina White surrounded by adoring fatheads, nattering ninnies, dithering dolts, saps and boneheads, oafs and gawks and simpletons. She was still as gorgeous as her shamelessly beautiful paintings. If the opportunity arose, Junior would have more use for her than for her so called art. Eleven days had passed since Wally stopped three bullets. He still had a little residual weakness in his arms, grew tired more easily than before he'd wound up on the wrong end of a pistol, complained of stiffness in his muscles, and used a cane to keep his full weight off his wounded leg. The rest of the medical care he required, as well as physical rehabilitation, could be had in Bright Beach as well as in San Francisco. By March, he should be back to normal, assuming that the definition of normal included massive scars and an internal hollow space where once his spleen had been. He was no longer in his scrubs, but wore gray wool slacks and a blue cashmere sweater over a white shirt. Face somber, he looked less like an obstetrician engaged in the business of life than like a professor of philosophy forever pondering the inevitability of death. At Thanksgiving dinner, again at the three tables set end to end, in the year of the triple zero, Mary Lampion, now fourteen years old, made an interesting announcement over the pumpkin pie. In her travels where none but she could go, after seven fascinating years of exploring a fraction of all the infinite worlds, she said she sensed beyond doubt that, as Barty's mother had told him on her deathbed, there is one special place beyond all the ways things are, one shining place. After Maria, Bonita, and Francesca had gone, when Agnes and her brothers joined forces to clear the table and wash the dishes, Barty kissed them good-night and retired to his room with The Star Beast. "For the love of God," Junior pleaded, "can't you please give me something for the pain?" Beyond the window, Barty failed to do any of the things that Agnes expected of a boy not fully enough part of the day to share its rain: He didn't flicker like an image on a static-peppered TV screen; he didn't shimmer like a phantom figure in Sahara heat or blur like a reflection in a steam-clouded mirror. To the waiter, Nolly was Nolly, Kathleen was Mrs. Wulfstan, and Tom Vanadium was sir--though not the usual perfunctorily polite sir, but sir with deferential emphasis. Tom was unknown to the waiter, but his shattered face gave him gravitas; besides, he possessed a quality, quite separate from carriage and demeanor and attitude, an ineffable something, that inspired respect and even trust. She hadn't looked up from her sketching. Although Junior thought she hadn't seen him, she'd apparently been aware of him all along. Incredibly, Renee came after him, slinky and seductive, trying to calm him and lure him back into an embrace. After adjusting the hairpin that held her lace mantilla, Maria passed from the narthex into the nave She dipped two fingers in the holy water that glimmered in the marble font, and crossed herself. Dr. Lipscomb brought his hands to his face, covering his nose and mouth as earlier they had been covered with a surgical mask, as though he were in danger of drawing in, with his breath, an idea that would forever change him. "And you're saying fear can fill his emptiness as well as sex or booze?" Kathleen wondered. He still had a sour taste in his mouth, although it was not as disgusting as it had been. All the odors were wonderfully clean and bracing--antiseptics, floor wax, freshly laundered bedsheets--without a whiff of. If she'd connected with his left side, as she intended, she might have broken his arm or cracked a few ribs. But lie saw the chair coming, and as agile as a base runner dodging a shortstop's tag, he turned away from her, taking the blow across his back. Agnes hadn't asked him to keep his strange feat a secret from his uncles. In truth, she had come home in such a curious state of mind that even as she'd worked with Jacob to prepare dinner and even as she'd overseen Edom's setting of the table, she hesitated to tell them what had happened on the run from Joey's grave to the station wagon. She fluctuated between guarded euphoria and fear bordering on panic, and she didn't trust herself to recount the experience until she had taken more time to absorb it. "There's lots of places where I don't have bad eyes at all. And then lots of places where I have it worse or don't have it as bad, but still have it some." Both angry and mortified, yet still fearful, a walking multimedia collage of emotions, Junior left the gallery. "No member of the society ever violates a secret confidence," Agnes assured him. Judging by the smeariness of the letters and by the fact that some had run before they dried, the writing instrument hadn't been a felt-tip marker, as Vanadium first thought. A spattering of red droplets on the closed lid of the toilet and across the beige marble floor, all dry now, gave rise to a suspicion. The time had come for him to think more seriously about his situation and his future. Self-improvement remained a laudable goal, but his efforts needed to be more focused. "No. But I'm sure as can be, the kid is better off undiscovered by the likes of him." In the spring and summer of '66, he flew to Memphis, Tennessee, stayed a few days, and walked 288 miles to St. Louis. From St. Louis he hiked west 253 miles to Kansas City, Missouri, and then southwest to Wichita. From Wichita to Oklahoma City. From Oklahoma City east to Fort Smith, Arkansas, from whence he rode home to Bright Beach on a series of Greyhound buses. He woke several times that night, instantly alert for a ghostly serenade, but he heard no otherworldly crooning. When she turned to him again, he had already slipped into his jacket and snatched the car keys off the foyer table. He put his left hand under her right arm, as though Agnes were feeble and in need of sup-. When her hand went limp in Celestina's, her body sagged, too, and her eyes were no longer either focused or rolling wildly. They shimmered into stillness, darkled with death, as the cardiac monitor sang the one long note that signified flatline. Bill wasn't impressed. "They build houses out of mud in China. No wonder everything falls down." Junior didn't believe in ghosts, anyway. He believed in flesh and bone, stone and mortar, money and power, himself and the future. He either detected their well-concealed surprise or assumed they would be curious as to why, in spite of extensive surgery, he still wore this Boris Karloff face. Into new avenues of the labyrinth he moved, but then back again, back upon his own trail, twisting, turning, from the occult to modern literature, from history to popular science, and here the occult once more, always the shadow glimpsed so fleetingly and so peripherally that it might have been imagination, the scent of a woman no sooner detected than lost again in the perfumes of aging paper and bindery glue, twisting, turning, until abruptly he stopped, breathing hard, halted by the realization that he hadn't heard the singing in some time. With a sigh, Obadiah differed: "Not clever. Crude. Before my hands became these

great-knuckled lumps, I could have dazzled you." Shortly past nine o'clock, an hour after Edom and Jacob had gone, Barty came downstairs, book in hand. "The twisties are back." Not all of the pins were knocked to the shear line with a single pull of the trigger. Three pulls were the minimum required, sometimes as many as six, depending on the lock. As Lipscomb picked up the freshened baby, Grace said, "That was as effective as any minister's wife could've been with an impossible parishioner-and, oh, do I wish we could sometimes be that pointed." The only light came from a reading lamp. An adjustable brass shade directed the light down onto a chair. Lined up on the kitchen table were green-grape-and-apple pies. The thick domed crusts, with their deeply fluted edges, were the coppery gold of precious coins. In his head, without apparent effort, Barty kept a running total of the number of seconds that he had been alive, and of the number of words in every book that he read. Agnes never checked his word totals for an entire volume; however, when she cited any page in a book that he'd just finished, he knew the number of words it contained. She got out of the cab and stood on the sidewalk in front of the gallery, her legs as shaky as those of a newborn colt. He felt some guilt at this-but only a little. His sister had done much for him; but jobless, ruled by his obsessions, hobbled by too much of his father's dour nature, there wasn't a lot that he could do for her. Just this benign deceit with the cards. "He was born yesterday, not today," Edom said glumly. "When the thousand-year quake hits, skyscrapers will pancake, bridges crumble, dams break. In three minutes, a million people will die between San Diego and Santa Barbara." Yet for all his love of reading and of music, events suggested that for mathematics he had a still greater aptitude. He had difficulty picturing the detective pattering in the garden on weekends. Unless there were bodies buried under the roses. Off with the cap. Yellow capsules in the bottle, also blue. He managed to shake one of each color into the palm of his left hand without spilling the rest on the floor. Shuddering, rubbing furiously at himself, he stumbled into the bathroom. In the mirror, he confronted a face he hardly recognized: swollen, lumpy peppered with red hives. On the serving tables, the canap? trays held only stained paper doilies, crumbs, and empty plastic champagne glasses.
